

Nelson Labs significantly expands lab operations and testing capabilities in Itasca, Illinois, to better serve customer needs

Nelson Labs doubles capacity for laboratory services at Itasca, Illinois lab location.

Salt Lake City, UT, April 19, 2018 - Nelson Laboratories, LLC, a Sotera Health company, announced today that it has made significant investments to expand the operations and service capabilities at its Itasca, Illinois laboratory facility to better service customers.

Customers will benefit from the state-of-the-art upgrades to the laboratory facilities as well as 10,000 square feet of building expansion and renovated lab space. Facility upgrades include a world-class BI sterility suite to support EO sterilization validations. Test offerings have been expanded to now include more than double the capacity for bioburden, radiation sterilization validations, bacterial endotoxin testing (BET), and product sterility testing for medical devices and pharmaceutical products.

New testing capabilities will be fully operational beginning May 1, 2018. These capabilities will include medical device particulate testing, healthcare reprocessing validations, sterilization for reuse validations and genetic microbial identification testing.

The Itasca laboratory facility is now ISO 17025 accredited and adheres to the same robust quality system as the Nelson Labs global headquarters in Salt Lake City. Additionally, customers are now able to track their submitted studies and retrieve test reports via the Nelson Labs' Secure Customer Portal.

"We are very excited about the new and expanded service offerings and laboratory upgrades that are now available at our Itasca facility," said John S. Bolinder, Vice President of North American lab operations at Nelson Labs. "Our customers will benefit from our enhanced quality system and expanded services, as well as the unparalleled expertise and customer service they have come to trust from Nelson Labs. In addition, we are able to offer the leading sterilization services of our sister company, Sterigenics, at multiple facilities located within close proximity to our Itasca laboratory. This allows us to more fully serve the needs of our sterilization and laboratory customers throughout the Midwestern region of the United States."

The Nelson Labs Itasca facility will be hosting an open house on May 1, 2018 from 10 a.m. - 2 p.m. Please contact the Itasca facility directly at 630-285-9121 to attend. Customers are invited to tour the facility, learn more about the upgrades and additional test offerings and meet the expert staff.

About Nelson Laboratories:

Nelson Laboratories, LLC is the industry-leading provider of global lab testing and expert consulting services. Nelson Labs performs over 400 rigorous microbiological and analytical laboratory tests across the medical device, pharmaceutical and tissue industries. The company is regarded as a best-in-class partner with a strong track record of collaborating with customers to solve complex issues. Most recently, the company announced the acquisition of Toxikon Europe, located in Leuven, Belgium, making Nelson Labs the leading global extractables and leachables lab testing platform.

About Sotera Health: [Sotera Health LLC, along with its business entities,](#) is the world’s leading, fully integrated protector of global health.
